Acknowledgement of Country

We acknowledge the traditional owners of this land and elders past and present. We recognise Aboriginal people as the original custodians of the lands that comprise the Snowy Valleys Council area and pay our respects to the leaders of the traditional custodians of this land.

Together we acknowledge the contributions of Aboriginal Australians to this country we all live in and share together.

Snowy Valleys Council is committed to enhancing the knowledge and understanding of our communities about the history, heritage and cultures of Aboriginal Australians.

Mayor's Welcome

Welcome to the Snowy Valleys Council three year Delivery Program. This document is Council's response to *Snowy Valleys 2028*, our Community Strategic Plan, and outlines the work that we will undertake to help achieve the community's vision and priorities.

Hundreds of residents have helped to shape our shared vision for the future of Snowy Valleys by taking part in the development of *Snowy Valleys 2028*, our 10 year Community Strategic Plan (CSP).

This overarching document highlights five strategic priorities:

- our towns and villages
- our natural environment
- growth through innovation
- communication and engagement
- our infrastructure

Together these strategic themes and the community's vision for the future create a roadmap for Snowy Valleys Council's suite of Integrated Planning and Reporting (IPR) documents.

This Delivery Program provides the framework to support the achievement of the community vision and priorities, and highlights the broad range of strategies, activities and key projects that Council will undertake over the next three years to deliver on the five strategic themes.

This three year Delivery Program also includes the completion of \$8.8 million major infrastructure projects for the community from the NSW Government Stronger Communities Major

Projects Program and a number of other significant infrastructure projects.

Council has also committed funds to a rolling program of Capital Works designed to improve and renew essential community infrastructure across the Snowy Valleys such as local roads, footpaths, parks and sportsgrounds and community halls and buildings.

The Delivery Program accompanies our Long Term Financial Plan, Fees and Charges, asset management plans and our annual Operational Plan and Budget.

This year's IPR documents are the first to be adopted by the new Council following the inaugural Local Government election in September 2017.

On behalf of my fellow Councillors, we look forward to working in partnership with the community, businesses, industry and other levels of government to making the Snowy Valleys a great place to live, work, play and invest.

Councillor James Hayes OAM

Mayor

General Manager's message

I am pleased to present our Delivery Program 2018-2021, setting out what work we as a Council organisation will undertake during the next three years in our efforts to achieve the priorities and goals as set out in *Snowy Valleys 2028: Our Community Strategic Plan*.

Snowy Valleys 2028 was prepared after extensive consultation and engagement with many communities, residents and groups.

It reflects what the community has identified as their top priorities for our towns and villages and for Snowy Valleys as a Council.

These include the continued nurturing of our unique towns and villages; facilitating economic development that promotes vibrancy, longevity and sustainability; caring for and protecting the beauty of our natural environment; fostering active participation in local decision making and striving to continually improve our vital infrastructure.

While Council can certainly act on some of these, we also need the support of other levels of government, industry and residents to be truly successful. Partnership and collaboration now for the future is vital, and Council will continue to advocate strongly for the needs of our community.

A dynamic political landscape and significant infrastructure investment within the Snowy Valleys Council and adjacent areas provides a wealth of opportunities over the next three years, and we will be working hard on positioning ourselves as a Council to take full advantage of these for our communities.

During the life of this Delivery Program, we will see a record \$8.8 million investment in important community infrastructure as we work hard to deliver the projects funded under the Stronger Communities Major Projects Program for merged councils.

The future is exciting for Snowy Valleys. We look forward to sharing the journey with you.

Matthew Hyde

General Manager

Our priority focus areas

The priority areas that Snowy Valleys Council will focus on over the next three years are:

- The effective and efficient use of our internal resources to deliver quality services to our community
 - Advocating on behalf of the community on major issues including roads and transport, local services, community safety, telecommunications and educational opportunities
 - Renewing essential infrastructure that has reached the end of its useful life, ensuring that our community infrastructure adequately meets the needs of our community now and into the future
 - Cutting red tape and renewing our focus on delivering excellent customer service
 - Delivering our major projects program on time and within allocated budgets
 - Developing strategic plans for our individual towns and villages
 - Developing and integrating standardised work practices across the organisation
 - Providing opportunities for the community to participate in the decision-making process ensuring outcomes that benefit our community
 - Developing sustained relationships, collaboration, partnerships and new ways to involve and empower the community
- Increasing the community's understanding of Council's operations through improved relationships and communication
 - Ensuring transparent and accountable leadership
 - Exploring tourism and economic development opportunities

Integrated planning and reporting framework (continued)

All local councils in New South Wales are required to plan and report in line with the NSW Office of Local Government's Integrated Planning and Reporting Framework.

Working within this framework, councils must prepare a number of plans that provide the detail on how a council intends to deliver works and services in both the short and long term.

The framework provides an opportunity to have important discussions with our community about funding priorities and service levels. It provides the foundation for shaping local identity and establishing partnerships for a more sustainable future.

This Delivery Program 2018-2021 outlines those actions and strategies Council will undertake to achieve the objectives outlined in the *Snowy Valleys 2028: Community Strategic Plan*, which are based on the community's priorities identified through consultation and engagement.

The Delivery Program is a commitment from Council that details those projects, activities and initiatives that will be delivered during its term of office to bring us closer to achieving the community's vision and addressing those issues identified as community priorities.

This three year Delivery Program will be reviewed annually to determine which objectives set out in the Community Strategic Plan can be achieved within Council's available resources, and an Operational Plan of actions for the coming financial year will be created.

This ensures that Council's long-term planning is consistent with the current and future needs of the community. The Operational Plan 2018-2019 is the first year of the Delivery Program 2018-2021. It outlines the actions that will be undertaken for each strategy, determines who has primary responsibility, and highlights related Council plans, activities and projects that coincide with each action.

Reporting on our progress

Progress against actions identified in the Operational Plan is reported to Council six monthly. An annual report is also prepared that reflects and reports on Council's overall performance for the financial year.

The progress and achievements of this Delivery Program will be reported to Council at the last meeting of our Councillor's elected term.

Strategies and Objectives

COMMUNITY STRATEGIC PLAN THEMES

STRATEGIC THEME	OUTCOMES
1. Towns and Villages	<ul style="list-style-type: none"> A sense of community and belonging, where people are friendly and support each other Retention of the local identity for each town and village Fair resource allocation across the Snowy Valleys region Services which support wellbeing for local people such as libraries, childcare and aged care Preservation and celebration of local history and heritage Promotion and support of arts and cultural activities Events which bring people together and promote the offerings of the region
2. Growth through Innovation	<ul style="list-style-type: none"> Support for existing industries, as well as initiatives to attract new employment opportunities across the region Tourism initiatives to attract more people to the area and in turn boost the local economy Initiatives to attract young families to the area to create a more diverse demography Sustainable tourism initiatives which boost the economy and promote sustainable living Support for small business and a reduction in red tape when dealing with government agencies Improved telecommunication services including mobile phone reception and high speed internet access
3. Our Natural Environment	<ul style="list-style-type: none"> To protect the natural environment and promote its beauty to local and visitors Opportunities to make use of the natural environment for sustainable recreation activities To ensure the cleanliness of local waterways, lakes and streams
4. Communication and Engagement	<ul style="list-style-type: none"> Councillors, the Council executive and staff to be accessible and open to listening To be communicated to in a timely manner on all Council decisions Additional communication in the context of the recent merger and as the new Council becomes established Opportunities to be actively involved in engagement activities which inform Council decision making Opportunities to be involved in committees which provide direct advice to Council on local issues
5. Our Infrastructure	<ul style="list-style-type: none"> Improved roads Amenities, infrastructure and facilities which meet community needs Reliable waste and sewage services Continuation of resource allocation towards sports grounds and facilities to enable recreation activities Improvements to sustainable transport infrastructure including walking tracks and cycleways Initiatives to encourage sustainable transport options for locals including public transport Continued access to local swimming pools

The *Snowy Valleys 2028* Community Strategic Plan was developed with direct input from the community. *Snowy Valleys 2028* is our long term shared vision for the future.

The Delivery Program describes how Council will structure its work to meet the community's objectives in *Snowy Valleys 2028* over the next three years. Our Delivery Program is built around the five strategic themes identified by the community through extensive consultation.

Specific actions that Council will undertake over the next financial year live in the Operational Plan.

Towns and Villages

**In 2028 we will
be a region that
celebrates and
nurtures the
unique character
of its towns and
villages**

To achieve this outcome over the next 10 years, Snowy Valleys Council's strategies are to:

- 1.1** Create welcoming towns and villages that are vibrant, accessible and foster a sense of community
- 1.2** Provide accessible services and initiatives which support and contribute to wellbeing across all stages of life
- 1.3** Protect and preserve local history and heritage
- 1.4** Expand, support and encourage arts and cultural events, activities and creative opportunities
- 1.5** Support and promote community and tourism events and festivals
- 1.6** Support and partner with other agencies to ensure community safety
- 1.7** Manage Council's resources in a manner which is equitable and ensures organisational sustainability
- 1.8** Advocate for and support the provision of affordable housing in our towns and villages
- 1.9** Provide a planning and development framework which protects the local amenity while supporting sustainable growth and an appropriate balance of land use

- Compliance with Water and Wastewater regulatory requirements

Communication and Engagement

**In 2028 we will
have engaged
communities
that actively
participate in
local decision
making**

To achieve this outcome over the next 10 years, Snowy Valleys Council's strategies are to:

- 4.1** Partner with local communities to create an ongoing culture of engagement to aid Council decision making
- 4.2** Deliver a communication strategy which ensures the community receives information in a timely and convenient manner
- 4.3** Council has sound organisational health and has a culture which promotes action, innovation, accountability and transparency
- 4.4** Provide a high level of customer service to the community
- 4.5** Council demonstrates strong leadership through a governance framework which drives progress towards achieving the community vision
- 4.6** Council builds strong relationships with other organisations to advocate for our communities

Communication and Engagement (continued)

KEY PROJECTS	TIMEFRAME		
	2018-2019	2019-2020	2020-2021
Establish Strategic Reference Groups	•		
Conduct a community satisfaction survey	•	•	•
Develop corporate communications strategy	•		
Develop and implement Business Continuity Plan	•	•	•
Develop and implement Volunteer Management Framework	•	•	•
Develop and implement an Information and Communications Technology strategy	•	•	•
Develop and implement a Customer Service Framework	•	•	•
Develop and implement Complaint Management Framework	•	•	•

PROJECT FUNDING STATUS LEGEND

Project is fully funded (internal or grant)	Project is dependent upon successful grant funds	Project is not yet funded
--	--	------------------------------

Communication and Engagement (continued)

OUR ONGOING COMMITMENT TO SUPPORT COMMUNICATION AND ENGAGEMENT

- Promote and support collaborative, informed and proactive leadership
- Ensure long term financial sustainability through our strategic planning processes
- Develop partnerships and network with community, government and industry
- Utilise traditional and new media to communicate information about council services, projects and events to the community
- Deliver program of Councillor engagement opportunities in the community
- Provide quality customer service delivery and processes
- Undertake community engagement activities
- Investigate emerging and new technologies to streamline council processes
- Undertake statutory compliance monitoring in accordance with relevant legislation
- Provide support to our section 355 committees
- Maintain an active Regional Organisational membership and support initiatives that deliver benefits to the local community
- Maintain an active Joint Organisation membership and support initiatives that deliver benefits to the local community

- Income	15,484,944	15,859,357	17,319,381
- Expenditure	5,604,436	3,522,729	3,565,992

MEASURING OUR SUCCESS

- Positive results across Council's key financial indicators
- Positive trends in Workplace Health and Safety indicators
- Implementation of Council's Information Communications Technology strategy
- Increased community satisfaction with Council's community engagement and communications
- Application of Council's Customer Service Charter
- Increased community satisfaction with Council's customer service levels
- Participation in strategic regional initiatives

Our infrastructure

**In 2028 we
will have
improved local
infrastructure**

To achieve this outcome over the next 10 years, Snowy Valleys Council's strategies are to:

- 5.1** Provide a program to improve local roads
- 5.2** Provide well maintained safe, vibrant and accessible community spaces and facilities
- 5.3** Provide and partner with other agencies to deliver an effective, safe local transport network
- 5.4** Provide a program to deliver and improve public amenities and infrastructure which meets an acceptable community standard
- 5.5** Provide infrastructure which encourages the use of sustainable transport such as cycleways and rail trails
- 5.6** Provide high quality, safe and accessible open spaces and places for active and passive recreation

KEY COUNCIL SERVICE AREAS SUPPORTING OUR INFRASTRUCTURE STRATEGY

- Works
- Assets and Design

Our infrastructure (continued)

KEY PROJECTS	TIMEFRAME		
	2018-2019	2019-2020	2020-2021
Develop portfolio Asset Management Plans for Transport, Water, Sewer, Stormwater, Buildings, Open Spaces, Plant and Fleet and Waste Services	•	•	
Integrate standard work practices across Infrastructure Works Division	•	•	
Develop feasibility study for Rosewood water and wastewater services		•	
Develop Plan of Management for cemeteries			•
Develop Plan of Management for community lands	•	•	
Develop service level agreement for open spaces	•		
Develop a capital works prioritisation framework	•		

PROJECT FUNDING STATUS LEGEND

Project is fully funded (internal or grant)	Project is dependent upon successful grant funds	Project is not yet funded
--	--	------------------------------

Our infrastructure (continued)

OUR ONGOING COMMITMENT TO SUPPORT OUR INFRASTRUCTURE

- Road maintenance program
- Footpath, kerb and gutter and stormwater maintenance program
- Monitor the condition of Council's assets and develop programs to ensure accepted standards are maintained
- Maintenance of Council's open spaces, sportsgrounds, parks and gardens
- Manage and maintain public pools
- Manage and maintain of Council's facilities, public amenities, and community buildings
- Deliver a Road Safety program
- Partner with other Councils, groups and agencies to lobby for additional roads funding
- Continue to offer the Capital Sports Grants program
- Operation of airstrips and aerodromes

KEY UNFUNDED COMMUNITY PROJECTS	COMMUNITY ENGAGEMENT SOURCE					ENDORSED BY COUNCIL?
	Major Projects	CSP	DMP	EDS	Other (e.g. Councillor priority)	
Undertake a masterplan for a Tumut mountain bike park, with a focus to expand the trail network			•			No
Consider feasibility study, economic benefit assessment and business case for Tumut to Batlow Rail based on progress and success of Tumbarumba to Rosewood Rail Trail project			•			No
Further advancements to the Tumut Airpark facility				•		
Redevelopment of the Tumut skate park as a Tumut Youth Precinct				•		

PROJECT FUNDING STATUS LEGEND

Project is fully funded (internal or grant)	Project is dependent upon successful grant funds	Project is not yet funded
--	--	------------------------------

Tumut and surrounds - place plan (continued)

OUR ONGOING COMMITMENT TO SUPPORT TUMUT AND SURROUNDS

- Continued event support for community groups
- Recognition of community volunteers and committees
- Investigate green waste provision
- Develop a business case for the upgrade of the Brindabella Road
- Provide support and lobby for the expedition of the new Tumut hospital and colocation of the ambulance service

Resourcing the delivery program

Snowy Valleys Council has 233 full time equivalent (FTE) employees who are responsible for providing services to more than 14,000 residents in our Local Government Area.

Responsible resource planning is essential to ensuring that Council is able to fulfil its service obligations to our communities in an efficient and effective way.

To resource the **Snowy Valleys 2028: Community Strategic Plan** and our three year **Delivery Program**, Council prepares and maintains three resourcing strategies:

- Long Term Financial Plan
- Workforce Management Plan
- Asset Management Plan

Long term financial plan

The Long Term Financial Plan (LTFP) describes the financial impact of delivering on the objectives in our **Delivery Program**.

The Long Term Financial Plan expresses in financial terms the activities that Council proposes to undertake over the short, medium and long term and guides the future strategies and actions of Council to ensure it continues to operate in a sustainable manner.

The Long Term Financial Plan is a necessary component of Council's Resourcing Strategy. It includes the financial modelling of actions and strategies contained within Council's Asset Management Plan and Workforce Plan, as well as other non- asset related strategies adopted by Council.

The Long Term Financial Plan acts as a tool for stakeholders (Council and the community) to use in deciding what resources Council are needed to deliver on the outcomes contained within *Snowy Valleys 2028*, our Community Strategic Plan.

The Long Term Financial Plan is projected over a period of ten years and includes the following:

- the planning assumptions used to develop the plan
- sensitivity analysis and testing
- financial modelling for different scenarios
- methods of monitoring financial performance

The Long Term Financial Plan is updated annually as part of Council's annual budget process. Upon the review and adoption of a new **Delivery Program** every four years, a detailed review of the Long Term Financial Plan is undertaken to ensure it still represents the key directives and priorities

identified in *Snowy Valleys 2028*, our Community Strategic Plan.

Snowy Valleys Council is also the Water and Sewer Authority for the Local Government Area. As required under the Local Government Act, Council has in place separate accounting funds for its general operations, water operations and sewer operations.

The Long Term Financial Plan includes the consolidated financial statements, and models for each respective fund.

Workforce management plan

Snowy Valleys Council's Workforce Management Plan aims to ensure that Council is able to meet the objectives outlined in the **Delivery Program** with its workforce.

Workforce planning is a continuous process of matching workforce requirements to organisational objectives, as well as analysing and forecasting the human resource implications when undertaking particular operational or strategic activities.

In developing and maintaining the **2018-2021 Workforce Management Plan**, consideration has been given to both internal and external factors that may affect Council's ability to meet its current and future workforce needs.

These factors include an ageing population, identified skills shortages, past recruiting experience, Council's financial position and also the expectations of the community.

The key strategies in the **2018-21 Workforce Management Plan** are:

Aligning human resources systems with contemporary practice

Ensuring alignment of human resource systems and practices to contemporary practice to support achievement of Council's vision.

Investing in our employees

Developing the capabilities needed of our people to ensure they can contribute to the achievement of Council's objectives at a high level of performance.

Attracting the best people

Attracting people with the right skills, knowledge and behaviours to ensure delivery of Council's operational and strategic plans

Retaining the right people

Retaining people with the right skills, knowledge and behaviours to ensure delivery of Council's operational and strategic plans

Developing our culture

Creating a work environment that fosters a constructive, safe, high performing culture and bring to life our organisational values and behaviours

Asset management

Asset Management Policy (the Policy)

Snowy Valleys Council's Asset Management policy and accompanying asset management framework establish the principles and direction for managing Council's infrastructure assets.

The policy's purpose is to meet the needs and aspirations of the community as expressed in the Community Strategic Plan in a sustainable manner – financially, environmental, economically and socially.

The policy outlines 16 Asset Management objectives aligned with the key themes of Value, Alignment, Leadership and Assurance.

Strategic Asset Management Plan (SAMP)

The Strategic Asset Management Plan (SAMP) is a high level plan which gives effect to the Policy by translating higher level Asset Management objectives into action plans, linked to a wide range of other corporate plans included in the IP&R process.

The Strategic Asset Management Plan sets out how Council will achieve its asset management objectives. The Plan also provides direction for 'downstream' activities such as the Portfolio Asset Management Plans (AMP), programs of work along with associated standards and specifications.

Snapshot of Current Asset Profile for SVC

ASSET CLASS	REPLACEMENT COST (\$,000)	DEPRECIATED REPLACEMENT COST (\$,000)	DEPRECIATED EXPENSE FOR CURRENT YEAR (\$000)
Transport <ul style="list-style-type: none"> • 729 km sealed roads • 464 km unsealed roads • 123 bridge & major culverts (7 timber) • 1 sealed, 1 grass aerodromes • 3781 culverts 	447,626	334,805	5,324
