SCHOOL HOLIDAY ACTIVITIES

Looking for something fun to do these Spring School Holidays?

Council is supporting a range of free and affordable creative workshops and events for all ages.

Hosts include the Tumut Art Society 5 Ways Studio & Gallery and the Tumbarumba Artists on Parade who are both running a large program of workshops including painting, drawing, print making, pyrography, and mixed media activities, plus more.

Riverina Landcare is hosting nature-journaling at the Tumut Nursery with artistic guidance from the Tumut Art Society's Melissa Martin and children can become Waterbug Detectives exploring the Adelong Creek.

SVC Libraries are also hosting a range of fun times for young people including Laser Tag, a Youth Pizza Night, old-fashioned game days and the Reading Olympics Closing Ceremony, plus much more.

Bookings are essential see our website for all the details.

POOL JOBS

As the pool season gets closer we're still looking for skilled and enthusiastic individuals to join our pool teams.

- Batlow Pool Supervisor
- Pool Lifeguards – Senior, Supervising and Junior 16 & 17 years
- Swim Instructors

If you or someone you know might be interested, we'd love to hear from you.

GEOTECHNICAL TESTING FOR MULTIPURPOSE CENTRE

Progress is continuing on the investigations into the Richmond Park site earmarked for the Tumut Multipurpose Centre build.

A contract for the geotechnical testing of the site was recently awarded and contractors have begun drilling boreholes and taking samples to assess the ground's geotechnical and environmental properties.

Residents in the area were advised of the works and to expect a noise level similar to that of a lawn mower during the testing.

Once this phase is complete, specialist designers will be engaged to prepare a Concept Design for the centre. Community members will have a chance to review and share feedback during the Concept Design and Development Application stages early next year.

Council received \$13,685,000 in funding from the NSW Government and Commonwealth Government's Local Economic Recovery Fund to build a Multipurpose Centre in Tumut which has sufficient capacity to double as an Evacuation Centre in times of emergency.

WASTEWATER PLANT MAINTENANCE

Around September and March every year, our Wastewater team cleans out the catch pond at the Tumut Wastewater Treatment Plant.

The process begins early in the morning by shutting off the flow into the pond and opening other valves and pumps to drain the water.

Once the water level drops below 100 mm, the team accesses the pond and uses pushing devices and hoses to move the sludge into the sump. A transfer pump then moves the sludge to the sludge lagoon.

This operation usually takes the entire day and includes inspections of various components. Afterward, the pond's sides are treated to remove any algae build-up before bringing the catch pond back online.

TUMUT CEMETERY WORKS

Our team is currently establishing an additional burial plot area at the Tumut Cemetery.

Once the ground leveling has been completed construction will begin on two new plinth rows adjacent to the lawn west section.

We'll also be replacing some of the existing trees that haven't grown so well and installing Irrigation to ensure a lush lawn.

The Tumut Cemetery is divided into Denominational Sections, Ashes Garden, Niche Wall, Lawn Cemetery and Baby Section.

REGISTER FOR THE GARAGE SALE TRAIL

Make a buck over two big weekends in November with the Garage Sale Trail.

With free registration, how-to guides, sale tips and promotional materials provided, it's never been easier to host a sale in your neighbourhood.

It's free to register and you can take part on one day, or over the two weekends on 9-10 and 16-17 November.
