

11 July 2025
Snowy Valleys Council and Talbingo Water Supply System,
Boil Water Alert

Process Failure

Problems with water treatment mean that drinking water in the **Talbingo Water Supply System** is unsafe.

Water used for drinking or food preparation should be brought to a rolling boil to make it safe. Kettles with automatic shut off switches can do this. Water should then be allowed to cool and stored in a clean container with a lid and refrigerated.

Bottled water or cool boiled water should be used for drinking, washing uncooked food (e.g. salad vegetables and fruit), making ice, cleaning teeth, gargling and pet's drinking water.

Dishes should be washed in hot soapy water or in a dishwasher. Children should take bottled water or cool boiled water to school.

Snowy Valleys Council is working to fix the problem.

This advice should be followed until further notice.

A media release and information will be available on Council's website.

For more information, please contact Snowy Valleys Council on 1300 ASK SVC (1300 275 782) or email info@svc.nsw.gov.au.
