Dear Steven,

6 August 2024

As you would be aware 2024 is the 75<sup>th</sup> Anniversary of the start of the original Snowy Hydro Project.

To commemorate this event we would like to propose having a monument erected which reflects our Snowy Hydro history.

We have approached Snowy Hydro with our proposal, and we have come up with the idea of mounting a Turbine Runner which will be supplied, reengineered, and erected by Snowy Hydro on the proposed site.

We have identified a site, and we are seeking permission from Snowy Valley Council as to the position which is at the corner of Scammel and Mitchell Ave Khancoban. This site is behind the swimming pool and to the left of the Khancoban Community Hall is currently an open space. This would provide easy parking and no obstruction to traffic flow.

Both Khancoban United Volunteers and Snowy Hydro feel this is an ideal position as it is the entrance to our shopping center. This will give maximum exposure to tourists and our residents who have a long association with the building of the Snowy Hydro scheme. We aim to celebrate our unique history by displaying a small part of how the Turbines generate clean energy.

Information and commemorative plaques will feature on the Turbine Runner explaining how the turbines operate, recognizing key people who were involved in the building of the Murray side of the scheme.

Our proposal will be funded by a Snowy Hydro commemorative Grant with most of the work being "In Kind" from Snowy Hydro. There will be very low ongoing maintenance or cost to Snowy Valley Council. Our aim is to have this project completed by December 2024 in time for the busy summer tourist season.

Your approval for the use of this land for our project would be very much appreciated and we look forward to your reply at your earliest convenience.

Kind Regards  
Vicki Sproule
